**Re: MUR 5440 – Linda Pritzker and Sustainable World Corporation**

Dear Mr. Jordan:

We represent Linda Pritzker and the Sustainable World Corporation (hereinafter referred to as "Respondents"). This is the response to the complaint filed by the Bush-Cheney 2004 Committee and the Republican National Committee against the Respondents and numerous other individuals and organizations, including the Media Fund, Inc. The complaint against Respondents is without merit with respect to Respondents and should be dismissed.

Both Respondents were recently named in another complaint (MUR 5427) filed by the Bush-Cheney 2004 Committee against The Media Fund. The two complaints are effectively identical with respect to the "claims" against Respondents. Both complaints involved the same donations to the same joint fundraising committee. While Complainants have added voluminous information about other groups and individuals, the allegations against Respondents contain no new information or evidence.

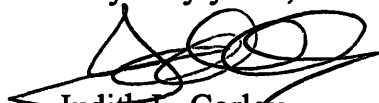

In response to the earlier complaint, Respondents set out there the reasons why the allegations against them are invalid. Copies of those earlier responses are attached for your reference. Since the complaints with respect to Respondents are identical, these prior responses are equally appropriate responses to Complainants' second complaint. Complainants' newest complaint still fails to demonstrate a violation by Respondents on any level. The Complainants did not provide any additional evidence with respect to Respondents. This should make clear that there is only a political, not legal, motive to this (and the prior) complaint.

The FEC should dismiss this complaint, as well as the prior complaint, and take no further action with respect to Respondents.

Very truly yours,
